PROFESSIONAL SUMMARY

Third-year B.Sc. Computer Science student at KC College, Mumbai, building practical expertise in Cybersecurity, Network Security, Linux Systems, and Python. Developed security-focused applications for password analysis, security assessment, and password generation while gaining hands-on experience in secure coding practices and networking fundamentals. NCC Air Wing Cadet and student leader recognized for discipline, analytical thinking, and attention to detail. Seeking internship opportunities to apply and expand skills in Cybersecurity, SOC Operations, Network Security, and IT Infrastructure while contributing to real-world security challenges.

TECHNICAL SKILLS

Programming: Python, JavaScript

Web Development: HTML5, CSS3, Responsive Design, Flask

Cybersecurity: Password Security Analysis, Security Awareness, Secure Coding Practices, Authentication Concepts

Networking: Network Fundamentals, TCP/IP, DNS, HTTP/HTTPS, Basic Network Troubleshooting

Tools & Platforms: Linux, Git, GitHub, VS Code

Core Competencies: Problem Solving, Debugging, Technical Documentation, Team Collaboration

PROJECTS

CipherCheck

Flask | Python | HTML | CSS | JavaScript

GitHub: <https://github.com/chandaniics/CipherCheck.git>

- Developed a cybersecurity-focused web application for real-time password security assessment and analysis.
- Implemented strength scoring, entropy estimation, cracking-time prediction, and security recommendations.

SecurePass

HTML | CSS | JavaScript

GitHub: <https://github.com/chandaniics/securepass-chandani.git>

- Built a secure password generation platform with customizable security parameters and strength indicators.
- Designed a responsive cybersecurity-themed interface with clipboard integration and improved usability.

Lilypad

HTML | CSS | JavaScript

Github: <https://github.com/chandaniics/Lilypad-productivity-app.git>

- Developed a productivity web application featuring task management, progress tracking, and local data storage.
- Implemented responsive design, dark mode functionality, and interactive user experience enhancements.

LEADERSHIP & ACTIVITIES

• NCC Air Wing Cadet | 1 Maharashtra Air Squadron NCC

- Developed discipline, precision, teamwork, and situational awareness through aviation oriented training.
- Applied structured problem-solving and attention to detail in both technical projects and academic work.

• USF Fellow | Participated in mentorship, leadership, and community engagement initiatives.

• Head of Event | Visionexa Spotlight'25, KC College

- Led planning and execution of a college-level event involving faculty and student teams.
- Coordinated communication, task allocation, and event operations under strict timelines.

EDUCATION

Bachelor of Science in Computer Science

Kishinchand Chellaram College, HSNR, Mumbai | Aug 2024 – Present | Expected Graduation: 2027
